Safeguard your Deposits

Minimize fraud and loss during cash deposits and transfers! No matter what your bag, there's something for every security need. From plastic to cloth, MMF proudly offers a wide variety of bags ranging from simple currency deposit bags, to high-security locking bags, to fire-resistant security couriers and totes.

Protect your deposits today with new
Bio-Natural™ Tamper-Evident Bags!

See page 50

Maximum Security Features

Minimize fraud and loss during cash transfers

Release liner
exposes adhesive and also serves as a receipt for your records.

Bar code
matches sequential alphanumeric numbering and has a high readability rate for accurate scanning.

Unique alphanumeric numbering
stamped on bag and release liner creates tracking capabilities. This feature prevents thieves from stealing and replacing the bag.

Yellow shaded write-on area
accepts notations using a pen or marker.

Serrated edging enhances the physical aspects of the security technology, but does not compromise the strength of the closure.

Security closure incorporates a "honeycomb" void pattern which includes specially-designed "target" lines within the heat indicating dots. Exceeds all requirements for levels of tamper-evidence at temperatures ranging from -60°F to 160°F.

Strong pouch seams are indented from the edge of the bag by a minimum of 1/8". If cut and resealed, portions of the microprinting along the seams will be visibly missing.

Sturdy, co-extruded polyethylene recyclable plastic construction ensures no ripping or puncturing occurs under normal use.

Bottom edge of bag is folded, not sealed. Any attempt to enter the bag through the bottom would require puncturing the bag, which would be instantly visible.

Tamper Indicators

HEAT INDICATORS

Blue dots appear on seal when tampered with heat from a hair dryer, vehicle heater, or other source.

COLD INDICATORS

'VOID' graphics on seal give instant evidence of attacks on the bag by freezing agents such as coolants or Freon. Serrated edges tear when tampered.

SALIVA INDICATORS

Black "star" graphics under seal appear distorted when saliva-soluble ink comes into contact with saliva, solvents, or other chemicals.

SEAM INDICATORS

Microprint along sides is missing or distorted if seams are cut and resealed.

Combination Lock Security Bags

Exclusive patented maximum security without the hassle of key control

- Patented 4-digit combination lock allows for flexibility in issuing bags with a re-settable combination configuration
- Eliminates the need for key control and complicated mastering keying while providing the same security as our UltimaSeven 7-pin lock

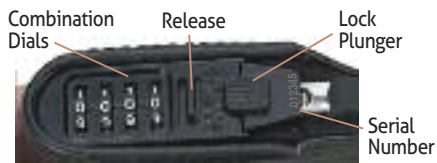

A. Standard Combination Lock Security Bag

- The flexibility of our exclusive combination lock available in our classic locking security bag
- Durable vinyl trim protects the lock against years of daily use and night deposit drops
- Pick-resistant metal zipper with an easy grip molded pull for smooth operation
- Ability to change the combination code at anytime when the lock is open

Stock bags cannot be customized

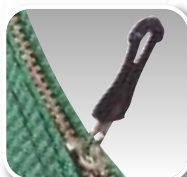

7-Pin Security Bags provide Ultimate Security and Durability!

UltimaShield™
metal guard protects
lock from impact and
abuse.

Heavy-Duty Vinyl
Secures lock to bag.

Pick-Resistant Nickel
zipper. Strong, nylon
zipper tape. Easy-grip,
molded zipper pull.

Reinforced Seams
add strength and
prevent raveling.

The Most Secure Lock in the Industry

The seven pins inside the tumbler make the lock virtually pick-resistant.

The lock is unique because the key cannot be released until the lock plunger is pressed down. This feature prevents users from accidentally locking their keys inside the bag.

U.S. Patent No. 5820267

*Full color retail packaging

Locking Security Bags

Bags

A. Key-Free Security Bags

- With the "no-key" system management can trust that the contents have not been tampered with once the lock is secured
- Unlike our other 7-Pin locks, the Key Free lock can be locked without a key in place
- Strap wraps around the lock plunger so bag won't lock
- Framed acrylic I.D. window is for business and address cards come standard

Model No.	Fabric	Bag Size		Imprint Area	
		W	H	W	H
2331207KDB	DuraBlock™	10-1/2"	9"	8"	3-1/4"
2331214K	Laminated Nylon	10-1/2"	9"	8"	3-1/4"

Fire-Block® Bags provide superior Fire-Resistance and strength!

In an independent laboratory test, a Fire-Block® Satchel containing stacks of checks in a clear vinyl bag was engulfed in 1600° F flames for 15 minutes. 100% of the contents survived showing only slight charring on the edges, but completely legible. Actual fires may produce varying results.

Photos taken at independent lab site

Multi-Layer Construction

One-ply 1000-Denier Fabric

Twice as durable as ordinary nylon and 14 times more durable than cotton. The shell is made from 1000-denier nylon with a polyvinyl laminate. It's exceptionally resistant to punctures and tears. Moisture-proof laminate prevents paper contents from water damage that could cause curling at the edges

Two-ply Fire-Barrier Fabric

Withstands a constant temperature of 1800° F, with a melting point of 3000°F. This fabric makes the bag fire-resistant! The thermal barrier consists of 18-oz. silica fabric and aluminized polyester, which reflects high levels of radiant energy. It also provides strength and abrasion resistance.

One-ply Heavyweight Wool Insulation

Adds strength and protects contents from moisture. The 6-oz. layer of cotton conceals the Fire-Barrier fabric and adds to the thickness of the bag.

A. Fire-Block® Rugged Totes

- Outer shell is durable Laminated 1000-Denier fabric
- Features double-stitched seams and leather-like reinforcements at typical wear points
- Comfort-wrapped handles and includes standard I.D. window and address card

Bag Fabrics & Colors

Bags

STEP 1

Choose Fabric Color

★ Durability Rating

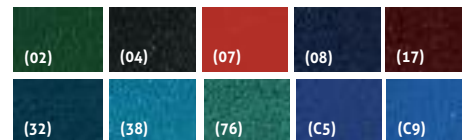

Find the name of the fabric you selected for your bag. Choose a color and add the two-digit color code to your order.

Leatherette Vinyl ★★☆☆☆☆

Expandable fabric with vinyl coating has an attractive, glossy texture with a leather-like grain. Easy to clean. **Fabric can be silk-screen imprinted.**

For personalization, black ink recommended

For personalization, white ink recommended

600-Denier Polyester ★★☆☆☆☆

600-denier fabric with waterproof polyvinyl coating is extremely durable and wear-resistant. **Fabric can be silk-screen imprinted or embroidered.**

For personalization, black ink/thread recommended.

For personalization, white ink/thread recommended.

DuraBlock™ ★★☆☆☆☆

Rugged, two-ply cotton canvas is extremely puncture- and wear-resistant. Thick weight and rigid construction are designed for rigorous applications. Water-repellent. **Fabric can be silk-screen imprinted or embroidered.**

Nylon ★★☆☆☆☆

70-denier fabric with waterproof polyvinyl coating is extremely lightweight, yet sturdy. **Fabric can be silk-screen imprinted.**

For personalization, black ink/thread recommended

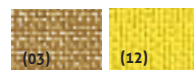

For personalization, white ink/thread recommended

Laminated Nylon ★★☆☆☆☆

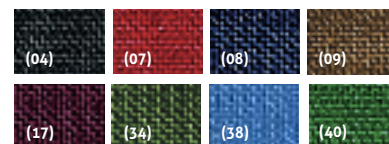

3-ply construction of 70-denier fabric with waterproof polyvinyl coating and cotton twill backing. Provides greater strength and is more puncture-resistant than standard nylon. **Fabric can be silk-screen imprinted or embroidered.**

1000-Denier ★★☆☆☆☆

Waterproof polyvinyl coating is twice as durable as nylon and 14 times more durable than cotton. Handsome texture. **Fabric can be silk-screen imprinted or embroidered.**

For personalization, black ink/thread recommended

For personalization, white ink/thread recommended

Laminated 1000-Denier ★★☆☆☆☆

3-ply fabric with waterproof polyvinyl coating and cotton twill backing. Twice as rigid as standard 1000-Denier. Handsome texture. **Fabric can be silk-screen imprinted or embroidered.**

1800-Denier Polyester ★★☆☆☆☆

Our heaviest fabric available! 1800-denier fabric with waterproof polyvinyl coating is thick, heavy and durable making it ideal for heavy-duty bags. **Fabric can be silk-screen imprinted or embroidered.**

For personalization, white ink/thread recommended.

How to Order

2325001 P 08

Model No. Add "P" for imprinting Color Code

**Screen-print Options**

Most of our bags are available with a FREE one-color screen-print with a minimum purchase requirement. We have many new colors and typefaces to choose from for the best selection in the industry. Add **P** to the base item number to take advantage of this free upgrade to personalize your bags.

Simply add the item number below per order to select Logo or Text imprint. If you do not order the minimum quantity for a FREE one-color screen print. A set up fee of \$35 applies.

To add Screen-print on quantities below first quantity break:

Logo Imprint:	\$35/order	P233-9002 + Color Code
Text Only Imprint:	\$35/order	P233-9004 + Color Code

Additional Options for All Quantities

For additional ink colors:	\$.50/ea.	P233-9008 + Color Code
For additional locations:	\$.50/ea.	P233-900900

Consecutive Numbering

Consecutive or sequential numbering is an easy way to track and account for bags within your system. To add Sequential Numbering in screen-print to your bag order use both the following item numbers:

Consecutive Number Setup:	\$35/order	P233-900600
Consecutive Number Per Bag:	\$.50/ea	P233-9007 + Color Code

Art Retouch Service

If your logo is in a format that will not produce a quality imprint, we will be happy to provide a quote to retouch your art

Per 60 min. charge:	\$60	P233900100
Per 15 min. charge	\$15	P233901000

Bag Personalization Options

Bags

Choose Your (A) Embroidery Thread Color and (B) Typeface

Depending on your fabric type, you can silk-screen imprint or embroider your bags (see fabric description on page 69).

EMBROIDERY OPTIONS

A. Thread Colors

B. Typefaces

Embroidery Options

Embroidery provides a lasting, durable imprint to showcase your brand. This premium service is available for use most fabrics. We have many new colors and typefaces to choose from, for the best selection in the industry.

One-time Setup fee for logo: \$75.00* E233-901200

Logo Imprint per bag: \$1.50 E233-9013 + Color Code
Text Only Imprint: \$1.50 E233-9014 + Color Code

Add a thread color: \$.25/ea. E233-9019 + Color Code
For additional locations: \$.50/ea. E233-9018 + Color Code

Consecutive Numbering

Consecutive or sequential numbering is an easy way to track and account for bags within your system. To add Sequential Numbering in screen-print to your bag order use both the following item numbers:

Consecutive Number Setup: \$35/order E233-901500
Consecutive Number Per Bag: \$1.50/ea. E233-9016 + Color Code

Additional ink and thread colors, PMS matching and typefaces are available upon request, though additional fees may apply.

Embroidery set-up and per bag fees may vary based on the complexity of the color and final thread count.

Art Retouch Service

If your logo is in a format that will not produce a quality imprint, we will be happy to provide a quote to retouch your art

Per 60 min. charge: \$60 E233901100
Per 15 min. charge: \$15 E233902000

Imprinting Guidelines

Quality logo imprints begin with quality artwork

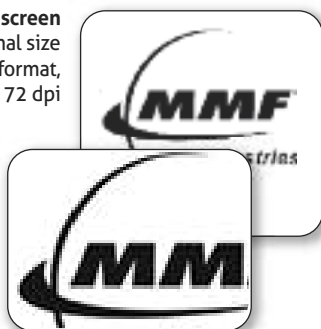

At MMF, we strive to ensure that you are delighted with the quality of your imprinted products. Please submit your artwork per the guidelines below so we may begin processing your order.

For help with your order,
please call Customer Service
800-323-8181

What is print-ready logo artwork?

Logo artwork should be sharp and clean with no rough or jagged edges. Many times, artwork will look good on screen or when printed at a small size. But, when enlarged to the size needed for your imprinted product, any imperfections are also magnified as shown in the example below. To ensure that your order is processed immediately and your artwork reproduces well, be sure your artwork meets the requirements listed in the *Guidelines for Submitting Artwork*.

How logo looks on screen
Logo at original size
Logo saved as .gif file format,
1" x .2", 40kb, 72 dpi

How the same logo
looks when enlarged
for imprinting

Not sure where to get print-ready logo artwork?

You may want to start by checking with your marketing, public relations, advertising or art resource to find the artwork that your company uses for print production.

Unable to provide print-ready logo artwork?

If you prefer, instead of a logo, we can create straight-line copy. Just specify the copy and the desired typeface/font (provide font name and a printed example), and we will match it as closely as possible. Or, if you would like to use your logo and are not sure if it is print-ready, send us the best quality, largest logo that you have and see details about our Art Retouch Service below.

Art Retouch Service: If your logo is in a format that will not produce a quality imprint, we will be happy to provide a quote to retouch your art. Charges for retouching artwork are billed at \$50.00 per hour with your prior authorization. This is a one-time art retouch charge, so unless your artwork changes, we will use your retouched logo for all future orders. Upon request, we will send a copy of the retouched art file to you.

Guidelines for Submitting Artwork (for the artwork preparer)

Electronic Artwork Requirements

- Preferred file format: Vector images created in Adobe Illustrator CS3 or earlier (file names ending with .eps or .ai).
- Acceptable file formats: QuarkXpress 7.0 or earlier, PDF.
- Convert all text to outlines.
- Include all fonts and linked graphics.
- Raster images (file names ending in tif, jpg or .psd) will be reviewed by the art department to determine if acceptable. Please note that saving a placed raster file as .eps does not qualify as vector art.
- Low-resolution electronic files such as Microsoft Word (.doc) and web images (.bmp and .gif) are not acceptable.
- Email files (call Customer Service for email address) or place on CD, DVD, Zip disk or 3.5" floppy disk.

If electronic artwork is not available, please submit hardcopy artwork per the following guidelines.

Hardcopy Artwork Requirements

- Preferred hardcopy format: Black ink laser copy printed at 600 dpi, to same size as desired imprint.
- No grayscale images.
- Image should be clear and clean, with no rough/jagged edges. The quality seen on the printout is what can be expected on the product.
- Do not fold, staple or tape hardcopy artwork.
- Faxes, photocopies and textured letterhead or business cards are not acceptable artwork.
- Call Customer Service for mailing information.

General Guidelines

- Specify imprint colors with PMS ink color(s).
- Do not create process, CMYK or RGB colors or gradients.
- Artwork for envelopes should not bleed; all printable material (live matter) should be at least 1/8" inside the envelope trim size.

Lock Options

Bags

Full Custom Bag Program:

While MMF Industries offers a wide array of bags, we may not have exactly what YOU need featured in this catalog. Depending on your specific transport, security and/or storage application, MMF's Custom Bag Experts, with over 50 years of experience, can modify an existing design or create a whole new bag based on YOUR specific design requirements. Full Custom Bags require 21 Business Days lead time.

Here's How:

1. Specify how your bag will be used
2. Size requirements, color, closure style and any other important features needed
3. The material properties needed and/or specify type of material
4. Level of security and keying requirements
5. If you can, provide a sketch, photo, or sample for our Design and Engineering team and we'll show you a final drawing and/or provide prototypes for approval to make sure we are meeting your exact needs!

Talk to your MMF Representative or contact Customer Service at 800-323-8181 for options, details and pricing

You provide a sketch or a sample...

We'll design and manufacture it!
